A Better World

Ireland's Policy for
International Development

The global health commitments

- Health remains central
- Furthest behind first, women and girls in particular
- Equity in access
- Maintain disease focus around ending the epidemics of AIDS, tuberculosis, malaria and other communicable diseases by 2030
- Enhance our health related engagements in crisis situations
- Work to better integrate health and nutrition
- NEW: Develop a new initiative on Sexual Reproductive Health and Rights (SRHR)
